APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application,
 and do hereby grant the same, subject to the following limitations and
 conditions: This permit is issued subject to all existing rights on the
 source and is limited to what the well will produce but not
 to exceed 0.10 c.f.s. It is understood that the amount of water herein
 granted is only a temporary allowance and that the final water right
 obtained under this permit will be dependent upon the amount of water
 actually placed to beneficial use. It is also understood that this right
 must allow for a reasonable lowering of the static water level at per-
 mittees well due to other ground water development in the area. A
 substantial weir or other type of measuring device must be installed and
 measurements of water use kept, and a method provided, either air line
 or opening, for measuring depth to water. The State retains the right
 to regulate the use of the water herein granted at any and all times.
 The amount of water to be appropriated shall be limited to the amount
 which can be applied to beneficial use, and not to exceed 0.10
 cubic feet per second.

Actual construction work shall begin on or before April 3, 1957

Proof of commencement of work shall be filed before May 3, 1957

Work must be prosecuted with reasonable diligence and be completed on or
 before April 3, 1958

Proof of completion of work shall be filed before May 3, 1958

Application of water to beneficial use shall be made on or before

April 3, 1960

Proof of the application of water to beneficial
 use must be filed with State Engineer on or before May 3, 1960
